## USA Warehouse 2-5 Days Delivery Auto Open Slide Out Heavy Duty Heat Press Machine CH1702

A heat press is a machine engineered to imprint a design or graphic on a substrate, such as a t-shirt, with the application of heat and pressure for a preset period of time. While heat presses are often used to apply designs to fabrics, specially designed presses can also be used to imprint designs on mugs, plates, jigsaw puzzles, caps, and other products.

### **Description:**

- Thicker Element Heating Plates with Protective Stainless Steel Cover for Heat Insulation
- LCD Digital Controllers (Set by degree Celsius, or degree Fahrenheit)
- Pressure adjustable according to different imprint item
- Drawer system hand protected Simple Operation
- Magnet system auto open when reaching time recycle preset.
